Lesson 20: Let Us Work Together

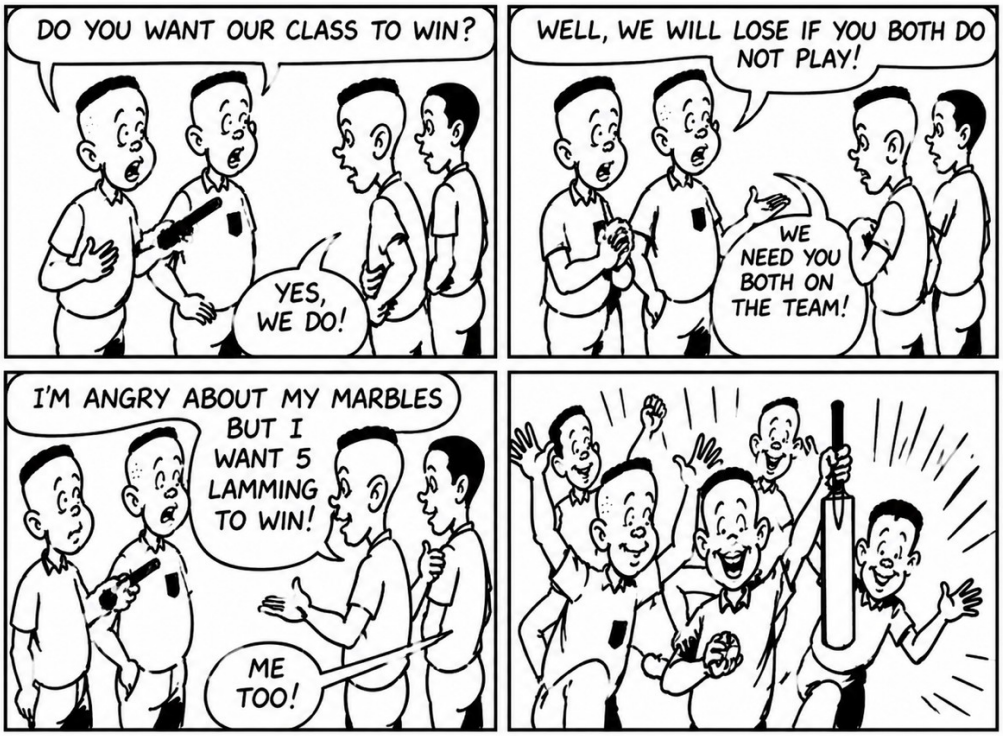
Problem:

A knockout series between Grades 5 and 6 classes is in progress. Grade 5 Lamming has a good chance of winning if it can win its next match against 5 Rowe. It will be its most difficult match as 5 Rowe is very good.

The two best players in 5 Lamming, Rohan, a fast bowler and Patrick, a batsman, have had a quarrel over marbles. They declare that they will not play together.

Grade 5 Lamming needs both players or it will surely be knocked out of the competition.

5 Lamming's cricket captain and the class monitor call a meeting.



Both boys decide to forget their quarrel.

Grade 5 Lamming wins by 16 runs. Rohan took 2 wickets and Patrick top scored with 30 runs.

DISCUSS:

What was the problem?

_____

YOUR CHALLENGE!

1. In pairs, act out the discussion between Rohan and Patrick before and after the meeting.

2. Role - play a situation where there is conflict. Have a third person help resolve the conflict.

As a peacemaker I learned
